

The Foundation's mission is to:

(1) Provide scholarships to Louisiana college students, enrolled in horticulture or closely related fields;

(2) Provide grants to individuals, institutions, and research programs.

How You Can Help

*Contributions are always welcome.

*Donation of items or gift certificates for auctions held at the annual LNLA Hospitality (at Gulf States Horticultural Expo) and/or our annual Gala.

Each year, usually in June, the Foundation sponsors a Gala. You may provide a sponsorship in any one of the following categories:

***Gold Sponsor**

Includes 2 tables premium seating at the Gala, recognition in Gala program and signage, and LNLA newsletter.
\$3,000.00

***Silver Sponsor**

Includes 1 table preferred seating at the Gala, recognition in Gala program and signage, and LNLA newsletter.
\$1,500.00

***Table Sponsor**

Includes 1 table reserved seating at the Gala, recognition in Gala program and LNLA newsletter.

\$850.00 (8 seats)

***Individual Admission**

\$100.00 per person.

Note: Gala VII will be held on June 10, 2016, at Lod Cook Alumni Center, LSU, Baton Rouge. Tables seat 8 each.

About Us

The Louisiana Nursery & Landscape Foundation for Scholarship & Research (LNLFSR) was founded in 2009 by members of the Louisiana Nursery & Landscape Association (LNLA). It was organized as a non-stock, non-profit corporation for the purpose of operating exclusively for charitable, scientific and educational purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code.

As a 501(c)(3) organization, all monies donated to it can be claimed as a tax deduction. The Foundation has its own Officers, Board of Directors, Articles of Incorporation and By-Laws and works very closely with LNLA.

The Foundation is Louisiana's 'Green Industry's leading catalyst to further education and research. Funds raised will help promising young students further their education in horticulture, landscape architecture, landscape contracting and maintenance, as well as allied professions. Funds will also provide grants to enhance research to help all phases of the 'Green Industry.'
